

LAMINATION TOOLING
Serving the P.C. Industry Since 1977

Introducing the TADCO PC-5000 Lamination Pin Cleaner & Polisher

The TADCO PC-5000 automatically cleans and polishes your Lamination Pins without reducing their size. The pins are cleaned, polished, and prepared for a coating of TADCO's Tuf-Lub release agent. Depinning of the circuit package is easier and accomplished without damage caused by resin buildup.

- Removable heavy-duty polyethylene bowl with lid.
- 3 qt. capacity – weight capacity 10 lbs.
- Mass creates a cyclonic effect which moves around the bowl and down into the center.
- Ball bearing motor operates on 115 volts, is thermally protected, and uses 1.6 amps.
(220 volt 50 Hz available, specify when ordering.)
- Vibrates at 3000 vpm.
- Overall dimensions: 11.5" diameter x 12.5" high.
- Shipping weight: 18 lbs.
